

CONTAINER SPECIFICATIONS

STEAMSHIP CONTAINERS

IMPERIAL SYSTEM (UNITED STATES)								
MODE	GROSS CUBIC FEET	INSIDE LENGTH	INSIDE WIDTH	INSIDE HEIGHT	DOOR WIDTH	DOOR HEIGHT	CUBIC FEET	AVE NET WGT PER CONTAINER
20 FCL'	1,100	19'4"	7'8"	7'10"	7'8"	7'6"	900	3,500-7,000
40 FCL'	2,200	39'6"	7'8"	7'10"	7'8"	7'6"	2,000	7,000-14,000
40' High Cube	2,600	39'6"	7'8"	8'10"	7'8"	8'6"	2,200	14,000-18,000
45' High Cube	3,000	44'6"	7'8"	8'10"	7'8"	8'6"	2,500	18,000-21,000

The above specifications are approximate and typical of the containers generally in worldwide use today. However, details will vary according to the shipping line utilized for any particular movement.

WOODEN LIFT-VANS

UniGroup Worldwide UTS standards are:

- Interior grade plywood construction
- Weather-proof lining
- Tightly packed, clearly marked
- Banded vertically and horizontal
- Heat Treated/stamped

TYPE/CUBE	LENGTH	WIDTH	HEIGHT	GROSS CUBIC FEET	AVE NET CUBE	NET AVE WEIGHT
STANDARD	87"	47"	87"	206	185	1,000
STORAGE VAULT	84"	60"	84"	245	220	1,400

Custom made lift-vans can be constructed to fit the needs of each shipper, while wooden internal cases and wooden overflow containers for large items (i.e., couch, sofa) are made to specifications.

TRI-WALL AIRLINE CONTAINERS

UniGroup Worldwide UTS standards are:

- Weather-proof lining
- Tightly packed, clearly marked
- Banded vertically and horizontally
- Cardboard construction

	CUBIC				TARE	AVE NET	GROSS
